Commissioners,

I received a letter from APS telling me they tried to change out my electric meter. After calling them, I find out that they are changing out all electric meters.

I did some research and found out that they are changing the Elster meter I have that has 7 readings to the Ladis & Gyr meter that has 8 readings. More research showed that this new meter can read "demand" readings plus being smart meter.

Now, as I understand it, the new rate case for APS has not been settled yet, but they are proceeding as though they have gotten all that they asked for.

Sounds to me like the fix is in. I suppose we, the rate payer, will have a new charge on our bill to pay for these new meters too.

June 18, 2016

William D. Burrus Jr.

Black Canyon City, AZ 85324

To the Honorable Corporation Commission Members:

RE: Docket Number E-01345A-16-0036

I am writing to express my opposition to the above mentioned attempt by Arizona Power Service (APS) to thwart alternative energy use in Arizona.

When President Roosevelt broke up the monopolies in the 1930's he recognized that by the nature our system required certain types of monopolies – Electricity, water, sewer etc. But, because they are monopolies we recognized that the customary citizen would require protection against abuse by those corporations in charge/managing those monopolies. Hence public utilities boards and corporation commissions came into existence.

You my friends are our representatives. When we voted you into office we were in effect giving you our trust and our belief that you act would in our best interest. Originally public utilities were to operate at a break-even point! Not for profit but only to make enough money to cover maintenance, future demand, or to cover depreciation and the like. Public utilizes were never meant to make a profit.

I will close with this people are becoming more and more aware of the dark money being used to buy our politicians and yes even corporation commissions. I urge you to uphold the scared trust placed in you by the citizens of Arizona.

Please feel free to contact me at the above address or by phone at 623-606-8580.

Respectfully yours,

William D. Burrus Jr
