For the Docket Numbers: E-01345A-16-0036 & E-01345A-16-0123

Dear Honorable Commissioners,

In the matter of the APS rate case, I respectfully request that you vote no.

I am the manager of a senior motor home park with 140 spaces. All of my residents are on fixed incomes, and an increase of any kind would be devastating to the welfare and well-being of all concerned. I recognize that it costs money to invest in infrastructure and maintain existing operations. That said, I also know that it is important to trim costs where one can and I'm not convinced APS is doing all they can in this regard.

I do not mind paying my fair share when it is warranted. However, in this particular situation it seems like APS is wanting to increase our standard monthly cost without providing more tools whereby customers can reduce their bills. When APS customers save energy, the utility can also save money by not having to invest so much in infrastructure. This seems like a win-win.

As the final arbitrators of the APS rate case, I sincerely hope you will vote no to expanded charges.

Thank you for taking into consideration seniors on fixed incomes.

Sincerely,

Nancy Teeter
Property Manager
