Subject: Aps rates thank you

Docket #E-01345A-16-0036 &
#E-01345A-16-0123
APS Rate case

Mr. Burns i want to thank you for standing up for us and i pray you can get it reversed. My question to commission is why APS have no plans for people that are disabled and are on a fixed income and are home 24 / 7 days a week? These plans create more harm on people that are living on fixed incomes. I live in THE dark most of the time i never use a light i have to wash my clothes between 9pm to 9am or i get penalized. I was going to get solar this year. But i couldnt becuase my roof is like 18 years old and i have the heavy tiles and they wanted to charge like 15k to redo the felt paper and then the cost of panels 20k that 35k i dont make that much in a years times. If i went ahead and got solar and my roof leaked it would cost me way to much for repairs. If people like me make 1 dollar more then the poverty mark we dont see any saving. When was the poverty discount created? When was the number increased to reflect the raising cost of living? Sir thank you again..
