Company: Ajo Improvement Company

Nature Of Opinion

Docket Number: WS-01025A-17-0361 Docket Position: Against

I am 72 years old and live on a social security income. the proposed raise in rates will potentially make AIC utilities unaffordable, if i am to pay my mortgage and afford groceries...which means my quality of life in ajo would be severely reduced. also could create housing and food insecurity overall. the cost of utilities provided today in ajo means that it is an affordable community for the retired and disabled. raising those costs is totally out of line with the cost of living increases given by social security. the proposed raises could force many older folks out of their homes and/or create untold misery in their daily lives. on a personal level, I would be facing a monthly utility bill of at least \$500.00. when added to my mortgage and phone/internet bill, I would be unable to afford enough food for myself, make a car payment, feed my animals or have financial wiggle room of any kind. no life. please do not raise the existing rates for utilities. thank you, m. kaestle
