**Nature Of Opinion**

**Docket Number:** E-01345A-18-0002

**Docket Position:** For

APS announced on the news that they received a tax cut and would be giving Arizonans a lower price rate. Then, last night on the news they stated they were increases their rates. What liars and thieves. This is the biggest electrical monopoly in this country. We are the laughing stock of the Northwest. APS needs competition, then they would go broke. No one wants this company in their homes. We would rather have Salt River. But, for some reason we can't, so we have to suffer with the lying corporation known as Arizona Public Service. There price hikes are killing us here in Arizona. More people are paying less for their mortgage then they pay to APS. Many that live in this state are one pay check away from being homeless. Look around and check it out. Stop these price gauging rates that keep going up higher and higher every six months. We have a power plant here. What is it for? The people that are forced to use APS are sick and tired of paying higher prices. Just because people got solar panels to cut their APS bills doesn't mean that we deserve to pay a higher amount. Its not about what we use. We're not idiots. Its about using their service and believe me we don't want them. We are sick of APS and their price increases. Their loosing money due to the solar panels. TUFF! Suck it up APS, we have to!! Go pedal your goods to another state. We need a new electrical company that is compassionate an understanding of the working class people.
