Subject: Stand with consumers against APS pollution tax

Dear Commissioner Boyd Dunn,

I'm fed up with the constant ACC-approved rate hikes to pay for APS's dirty energy. Less than one year after a massive rate increase went into effect, APS wants you to vote for another rate hike on their customers.

As you know, APS's rate hike proposal calls for a 2% increase in exchange for cleaning up pollution at the Four Corners Coal Power Plant. In other words, the giant monopoly wants to charge Arizonans more for dirty energy even as it refuses to invest in clean and renewable energy. That's unacceptable.

You have the power to stop APS, and protect Arizonan ratepayers and the people who elected you.

Arizona is one of the sunniest places on the planet, and we should be the leader in clean, cheap and renewable energy. I hope the Corporation Commission stands with consumers against APS's latest dirty energy tax.

Sincerely,
Nancy Scharff
