2018 rate hike is excessive and unfair!!! It was advertised as a \$6 a month average increase? My first bill showed an increase of \$50 compared to the previous, and prior year. I'm afraid my summer bills will see an increase of \$100 + per month. Our usage is generally 90% "Off-Peak" and it appears the KWH rates for "Off-Peak" generation has increased nearly 150%. How is that a fair increase? I hope you can look at this increase and make some fair adjustments.. Thank You, Brad Mathers
