RE: ACC/AIC Utility Rate Hike

Dear Commissioner Dunn

The 300+% Rate Hike you are proposing for Ajo, Arizona will cause great hardship to its citizens. Is that what you want to do...or are you just looking at some bottom line figures and giving the proposal merit?

The ethics of your commission have been questioned repeatedly and there are remaining doubts about how committed you are to your charter of fairness, of "balancing consumer and corporate interests".

FreeportMacMoran is a billion dollar corporation. Ajo is a Colonia with a \$27,000 median income. Does the board of Freeport truly think it can clear the balance sheets by extorting outrageous utility payments from the poor? Is that a balance? Sounds more like tipping the scales!

The AIC Rate Hike will kill Ajo! The people who live in this isolated community are poor. They already pay Phoenix prices for water.....and Freeport owns the well!...which by the way was dug in 1915-16, not last year.

Please have a conscience about the way you treat your fellow human beings. They voted you into office. Perhaps the corporate interests you serve so slavishly paid your bills, but it is the people who vote.

Please **VOTE NO ON AIC RATE HIKE**. Thank you,

Sincerely,

Corina A. Mendoza 8-20-18

I am disabled and I am only able to work part-time. I live in Ajo. How dare they treat us to accomodate for their well-being. Its called " greed" - Corina Mendoza
