March 31, 2006

Dear Sir or Madam:

The attached tariff pages are being filed in compliance with the Commission’s Decision No. 68604, in the above referenced dockets. This is the first of two filings that Qwest will be making in compliance with Section 25 of the Settlement Agreement approved in Decision No. 68604. This filing addresses the rate changes and all other tariff revisions approved in the Decision, with the exception of the establishment of maximum rates. The pages setting forth QC’s maximum rates have not been completed at this time, but will be filed within the 30 day timeframe required by the Decision. Specifically, the following changes are being made pursuant to the referenced paragraphs of the Settlement Agreement:

Paragraph 8, Switched Access-Charge Reductions: the originating and terminating rates for the Carrier Common Line charge and the rate for Interconnection found in the Access Service Price Cap Tariff are reduced to $0.00000.

Paragraph 13, Additional Consumer Benefits: the following changes are being made to the Exchange and Network Services Price Cap Tariff:

1. The Zone Increment Charges found in Section 5.1.6 are being reduced. The charge for Zone 1 is being reduced from $1.00 to $0.50 and the charge for Zone 2 is being reduced from $3.00 to $1.50.

2. Rates for residential Non-Published and Non-Listed Service found in Section 5.7.1 are being reduced. The rate for Non-Published Service is being reduced from $1.65 to $0.90 and the rate for Non-Listed Service is being reduced from $1.30 to $0.55. These rates incorporate the further reduction of $.25 per month that was approved in Commissioner Mundell’s amendment.

3. Section 5.2.6 has been revised to reflect the increased funding of $1,000,000 for the Telephone Assistance Plan for the Medically Needy. The credit associated with Zone Charges is also being reduced to reflect the new Zone Charge rates.
Paragraph 15, Service Quality: the following changes are being made to the Service Quality Plan Tariff:

1. Section 2.5.6 has been modified to establish a total company maximum objective of no more than 3.0 trouble reports per 100 access lines in any month over all wire centers.
2. Section 2.6.1 has been revised to include the revised ranges and penalty/offsets for Residence Office, Business Office and Repair Office access.
3. Section 2.6.1 has also been revised to add a $2.00 one-time credit for each residential and business access line when Qwest becomes subject to penalties under two or more of the five categories defined in Section 2.6.
4. A definition of Force Majeure has been added to Section 2.1.

Paragraph 16, Line Extension Credit: Section 4.2.2 of the Exchange and Network Services Price Cap Tariff has been revised to change the Line Extension Credit from $3,000 to $5,000.

Paragraph 21, Deregulation Of Voice Mail Service And Billing And Collection Services: Information and Billing Services currently found in Section 8 of Qwest’s Access Service Price Cap Tariff have been deregulated and are therefore being removed from the tariff. In addition, this filing cancels Access Service Price Cap Tariff Section 108, Obsolete Information and Billing Services in its entirety. Voice Messaging Service has been “detrifed” since it was introduced in the late 1980’s. Therefore, no further changes are required at this time to reflect the Commission’s approval to deregulate this service.

Paragraph 22, Promotional Offerings: Section 2.2.11 B of the Exchange and Network Services Price Cap Tariff is being modified to include revised promotional tariff language.

Pursuant to Decision No. 68604, this filing is effective April 1, 2006. If you have any questions concerning this matter, please contact me directly.

Sincerely,

[Signature]

3.7 RATE TERMS AND CONDITIONS (Cont'd)

3.7.4 PERCENT INTERSTATE USE (PIU)

When the customer reports interstate and intrastate use of in-service Switched Access Service, Carrier Common Line Access rates will be billed only to intrastate Switched Access Service access minutes based on the data reported by the customer as set forth in 2.3.10, preceding, (Jurisdictional Reports), except where the Company is billing according to actuals by jurisdiction. Intrastate Switched Access Service access minutes will, after adjustment as set forth in 3.6.4, preceding (Resale), when necessary, be used to determine Carrier Common Line Access rates as set forth in 3.7.5, following.

3.7.5 DETERMINATION OF RATES

After the adjustments as set forth in 3.6.4 and 3.7.4, preceding, have been applied, when necessary, to Switched Access Service access minutes, rates for the involved customer account will be determined as follows:

A. Carrier Common Line Access rates shall not be reduced as set forth in 3.6.1, preceding, unless Switched Access rates, as set forth in 6.8, following, are applied to the customer's Switched Access Services.

B. The terminating access per minute rate applies to all terminating access minutes of use.

C. The originating access per minute rate applies to all originating access minutes of use.

2. GENERAL REGULATIONS

2.1 DEFINITIONS (Cont'd)

Dual Tone Multifrequency Signaling

A method of signaling used on a local access line which uses a simultaneous combination of one of a lower group of frequencies and one of a higher group of frequencies to represent each digit or character transmitted from the customer's station to the central office.

Exchange Area

A geographical area established by the Commission, which consists of one or more central offices together with associated facilities which are used in providing basic local exchange service. Calls within an exchange area are considered local calls.

Exchange

The entire telecommunications plant and facilities used in providing telecommunication service to customers located in a geographic area defined by tariff. An exchange may contain more than one central office switch location or wire center.

Force Majeure

Qwest shall not be liable for any delay or failure in performance of any part of this tariff from any cause beyond its control and without its fault or negligence including, without limitation:

• Acts of nature, acts of civil or military authority, government regulations, embargoes, epidemics, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, floods, work stoppages, power blackouts, volcanic action, other major environmental disturbances, or unusually severe weather conditions (collectively, a Force Majeure Event);

• The inability of the Company to secure products or services of other Persons or transportation facilities or acts or omissions of transportation carriers shall be considered Force Majeure Events, to the extent any delay or failure in performance caused by these circumstances is beyond the Company's control and without the Company’s fault or negligence.

(M) Material moved to Page 5.
2. GENERAL REGULATIONS

2.1 DEFINITIONS (Cont'd)

**Held Service Order**

An application for establishment of any service in the service territory of the Company, which is not filled because of the inability of the Company to supply service in 10 working days after the date of the customer's application. When the customer requests a later service date (beyond the ten working days), the application shall be considered a held service order after that customer requested date.

**Hertz**

The unit measurement for frequency and is equal to one cycle per second. The abbreviation Hz is commonly used for the term Hertz.

**Individual Line Service**

A grade of exchange service which provides that only one customer shall be served by the channel connecting the customer's service location with the serving central office.

**Intercept Service**

A service arrangement provided by the Company so that calls placed to a disconnected or discontinued telephone number are intercepted and the calling party is informed that the called telephone number has been disconnected, discontinued, changed to another number, that calls are being received by another telephone number, etc.

**Local Access Line**

A facility, totally within one exchange, providing a telecommunications channel between a customer's service location and the serving central office.

**Local Access and Transport Area (LATA)**

Each local access and transport area which has been designated in Arizona. As part of the divestiture of the Bell operating companies (BOCs) in 1984, the Modified Final Judgement (MFJ) called for the separation of exchange and interexchange functions, where exchange services were to be provided by the BOCs. LATAs were created in response to the MFJ exchange-area requirements. A LATA may encompass one or more contiguous local exchanges serving common social, economic, or other purposes, even when that area transcends municipal or other local government boundaries.

(M) Material moved from Page 4.
(M1) Material moved to Page 6.
2. GENERAL REGULATIONS

2.1 DEFINITIONS (Cont'd)

Local Calling Area

The geographic area approved by the Commission as a community of interest in which customers may make calls without payment of a toll charge. The local calling area may include exchange areas in addition to the serving exchange area.

Out-of-Service

The customer's telephone service quality has deteriorated to such an extent that the customer cannot originate or receive calls, or cannot use the service because of excessive cross-talk or static, or other transmission problems (e.g., customer complains of no dial tone, can't receive a call or can't hear during a call).

Standard Network Interface

The demarcation point between Company facilities and the customer's inside wire, typically located at the protector on an outside wall at the customer premise.

Station

A device and any other necessary equipment at the customer's premises which allows the customer to establish and continue communication.

Telecommunications Service

The electronic or optical transmission of information between separate points by prearranged means.

Toll Service

The furnishing of telecommunications service between stations in different exchange areas or local calling areas, as defined by the Commission. This service is also referred to as message telecommunication service (MTS), message toll or interexchange telecommunications service.

Wire Center

The building which houses the local equipment from which communications services are furnished and facilities are terminated which furnish service within a designated wire center serving area.

(M) Material moved from Page 5.
2. GENERAL REGULATIONS

2.3 RELATIONS BETWEEN CUSTOMERS AND THE COMPANY (Cont'd)

2.3.2 CUSTOMER BILLING REQUIREMENTS

A. Billing Credits

1. In the event the customer's service from the Company is interrupted and remains out-of-service for more than 8 continuous hours after being reported by the customer, or found to be out-of-service by the Company, (whichever occurs first) appropriate adjustments shall be automatically made by the Company to the customer's bill. The adjustment will be a credit on the customer's monthly bill equal to 1/30 of the Company's basic monthly service charges.

2. In the event the customer's service from the Company is interrupted and remains out-of-service for more than 48 continuous hours after being reported by the customer, or found to be out-of-service by the Company, (whichever occurs first) appropriate adjustments shall be automatically made by the Company to the customer's bill. The adjustment will be a credit on the customer's monthly bill equal to 7/30 of the Company's basic monthly service charges. Thereafter, the adjustment credit will be 7/30 of the basic monthly service charges for each 24 hour period beyond 48 hours of continuous out-of-service (i.e., 72 hours = 14/30, 96 hours = 21/30, 120 hours = 28/30, etc.)

3. The Company will not be required to provide an adjustment for the loss of service during time periods due to the following conditions:

   a. the negligence or willful act of the customer; or
   b. a malfunction of facilities other than those under the control of the Company; or
   c. natural disasters or other events affecting large numbers of customers such as described in 2.5.2.A.4.; or
   d. the inability of the Company to gain access to the customer's premises, or to obtain customer provided facilities, when required, or to obtain other approvals not within the control of the Company, including permits, licenses or property-use authorizations for which the Company may not have been expected to accommodate.

   (C)
   (C)
   (M)

(M) Material moved to Page 12.
2. GENERAL REGULATIONS

2.3 RELATIONS BETWEEN CUSTOMERS AND THE COMPANY

2.3.2 CUSTOMER BILLING REQUIREMENTS

A. Billing Credits (Cont’d)

4. In the event the Company misses a service call (i.e., an appointment for a premise visit associated with installation of new service or with a regrade of service) by more than four hours, the Company shall automatically make a credit to the monthly bill of the customer for missed appointments. This credit shall also apply when the Company misses scheduled installation work to be done in the central office. A missed appointment credit will not be required for Force Majeure events or for those conditions listed in 2.3.2.A.3, preceding.

- Credit per missed appointment
  - Residence $16.00
  - Business 19.00

2.3.4 PUBLIC INFORMATION

A. Business Offices

The Company shall have one or more business offices or customer service centers staffed to provide access to qualified personnel in person or by telephone, including supervisory personnel where warranted, to provide information relating to services and rates, accept and process applications for service, explain charges on customers' bills, adjust charges made in error, and to generally act as representatives of the Company. If one business office serves several exchanges, toll-free calling from those exchanges to that office shall be provided.

B. Information Available from the Business Office

The Company shall, at a minimum, provide the following information to the public, as applicable and upon request, at each business office open to the public:

1. Copies of all Tariffs as filed with this Commission.

2. For each exchange served by the business office, maps showing the exchange, base rate area, zone and wire center (if applicable) boundaries in sufficient size and detail from which all customer locations can be determined and mileage and zone charges measured from these boundaries can be quoted.

3. Publicly announced information about the present and intended future availability of specific classes of service at the location of a potential customer.
2. GENERAL REGULATIONS

2.3 RELATIONS BETWEEN CUSTOMERS AND THE COMPANY

2.3.4 PUBLIC INFORMATION

B. Information Available from the Business Office (Cont’d)

4. Publicly announced information concerning plans for major service changes in the area served by the business office.

5. Information pertaining to services and rates as proposed in pending tariff or rate change filings.

C. Directory Assistance and Intercept

1. The Company shall list its basic local exchange customers (except those customers requesting otherwise) with the directory assistance operators within 72 hours of service connection in order that they may provide the requested telephone numbers based on the customers' names and addresses when those requests are made.

2. In the event of an error in the listed number or name of any customer by the Company and until a new directory is published, the Company shall make whatever special arrangements are necessary and reasonable at no charge to ensure that calling parties are able to reach the customer whose listed number or name is in error.

3. In the event of an error in the number, name or address listing of any customer, the customer's correct name, address and telephone number shall be in the files of the directory assistance and intercept operators within 72 hours of confirmation of the error by the Company and furnished any caller upon request.

4. Whenever any customer's telephone number is changed at the request of the customer after a directory is published and until a new directory is issued, the Company shall intercept all calls to the former number for a reasonable period, but not fewer than 60 days. If the change is due to the initiative of the Company, intercept service for the former number shall be provided for the greater of 60 days or the remaining life of the current directory at no charge. The correct number shall be in the files of the information operator within 72 hours of the number change. The Company shall provide the caller with information on how to obtain the new number with the intercept recording.

2.4 CONSTRUCTION AND MAINTENANCE OF PLANT AND EQUIPMENT

The telecommunications plant of the Company shall be constructed, installed, maintained and operated in accordance with good engineering practice in the telecommunications industry to assure, as far as reasonably possible, uniformity in the quality of service furnished and the safety of person and property.
2. GENERAL REGULATIONS

2.5 QUALITY OF TELECOMMUNICATIONS SERVICE

2.5.1 ADEQUACY OF SERVICE

A. General Requirements

1. The Company shall employ prudent management and engineering practices so that sufficient equipment and adequate personnel are available at all times. To meet this objective, the Company shall conduct traffic studies, employ reasonable procedures for forecasting future service demand and maintain the records necessary to demonstrate to this Commission that sufficient equipment is in use and that an adequate operating force is provided.

2. The criteria for quality of service established within this Tariff defines a minimal acceptable standard for the most basic elements of telecommunications service. This Tariff does not attempt to define all criteria for all service applications nor the most desirable service level for any basic element, except for the minimal acceptable standard. In the event a specific service element is not covered by this Tariff, the Company will be expected to meet generally accepted industry standards for that element and the total service. Organizations which are recognized for establishing standards that may be appropriate for telecommunications services include the IEEE, ANSI, Bellcore and the Federal Communications Commission (FCC).

3. The Company shall make regular periodic measurements to determine the level of service for each item included in 2.5.2 through 2.5.6, following. These records shall be available for review by this Commission upon request.

4. The standards within this Tariff establish the minimum acceptable quality of service under normal operating conditions. They do not establish a level of performance to be achieved during periods of emergency, catastrophe, natural disaster, or other events affecting large numbers of customers nor shall they apply to extraordinary or abnormal conditions of operation, such as those resulting from work stoppage, civil unrest, or other Force Majeure events for which the Company may not have been expected to accommodate.
2. GENERAL REGULATIONS

2.5 QUALITY OF TELECOMMUNICATIONS SERVICE (Cont'd)

2.5.6 TROUBLE REPORT RESPONSE

A. Maximum Acceptable Number of Reports

The Company shall maintain its network so as to economically minimize customer trouble reports for services, but shall not exceed eight (8) reports per 100 access lines per month per wire center averaged over a three-month period. Each customer receiving party line service shall be considered to have one access line. The total company maximum objective shall be no more than 3.0 trouble reports per 100 access lines in any month averaged over all wire centers.

B. Allowable Response Time

The Company shall clear 85 percent of all out-of-service trouble reports during any three-month period within 24 hours.

This criteria excludes the following conditions:

- Reports for services of another provider.
- Situations where access to the customers' premise is required, but not available.

C. Response Priority

If requested by the customer, the Company shall give priority to and initiate repairs regardless of the hour for customer trouble reports which may affect the public health and safety.

D. Customer Notification

If employees of the Company cannot clear the reported trouble promptly, the customer will be given a reasonable estimate of when the trouble report will be cleared.

E. Repair Service Commitments

The Company shall meet 90 percent of its repair service commitments during any three-month period. This criteria excludes situations were the commitment cannot be met due to customer reasons (i.e., access to the customers' premise is required but not available).

K. For any year in which Qwest becomes subject to penalties under two or more of the five categories defined in 2.6 of this Tariff [i.e., 2.6.1(F) through 2.6.1(J)], additional credits shall be implemented. Such additional credits shall take the form of one-time credits of $2.00 for each residential and business access line in Arizona. Qwest shall issue these credits no later than March 31 of the year in which the foregoing 2.6 penalties are paid. The foregoing credits are additional to any credits and penalties provided under this Tariff.

2.7 WAIVER CLAUSE

2.7.1 PROCEDURE FOR WAIVER OF THIS TARIFF

The Company may seek permission to waive all or part of this Tariff, subject to the following limitations:

A. A request by the Company for a blanket waiver shall not be granted. Only waivers for individual customers or individual developments or areas shall be considered.

B. A waiver may be granted only if the Company can demonstrate a good faith effort to comply with the provisions of this Tariff and the Commission finds that the public interest requires the granting of the waiver.
2. GENERAL REGULATIONS - CONDITIONS OF OFFERING

2.2 ESTABLISHING AND FURNISHING SERVICE (Cont'd)

2.2.11 SPECIAL SERVICES

A. General

1. Where equipment, facilities, or service arrangements are requested which are not provided for in the Company's applicable Tariffs, monthly rates and one-time charges such as nonrecurring and construction charges will apply based on the circumstances in each case.

2. These special equipment and service items will be provided whenever, in the judgment of the Company, there is a valid reason for providing the service requested. In such cases, the Company reserves the right to require an initial contract period longer than one month at the same location.

3. The rates and charges specified contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the customer. If, at the request of the customer, work is performed outside of regular working hours, either for convenience or because the time allowed is insufficient to permit completion during regular hours or if the customer interrupts work which has begun, the customer may be required to pay any additional costs incurred.

4. A concession will be allowed from the standard rates for service furnished to employees of the Company. The amount of concession will, in each case, depend upon how necessary the service is considered in carrying on the work of the Company.

B. Promotional Offerings

The Company may, from time to time, engage in special promotional offerings designed to attract new customers or to increase existing customer awareness of a particular service. These offerings may include, but are not limited to, waiving or reducing the applicable charges for the promoted service. The promotional offerings are subject to the availability of the services and may be limited to a specific geographical area, to a subset of a specific market group, the duration, and the date and times of the offering.
4. CONSTRUCTION CHARGES AND OTHER SPECIAL CHARGES

4.2 CONSTRUCTION ON PUBLIC HIGHWAYS OR OTHER EASEMENTS

4.2.2 SPECIAL RURAL CONSTRUCTION CHARGES

A. Special rural construction charges may apply as specified herein.

1. Costs for existing facilities will be determined in the following manner:

   a. A Telephone Plant Index (TPI) translator, specific to the type and vintage year of plant involved, will be applied to the current construction costs for the existing circuit to calculate the original cost of the circuit.

   b. A depreciation factor, specific to the type and vintage year of plant involved, will be applied to the original cost determined in a., to calculate at net book cost, or original construction cost less accrued depreciation.

2. Additional construction charges will be determined as follows:

   a. Any additional construction charges to the rural customer will not exceed the customer's pro rata share of original construction costs, less accrued depreciation, on existing facilities, as determined in 1., preceding, plus the customer's pro rata share of the construction costs of new facilities, less a credit of the lesser of $5,000 or the sum of the aforementioned costs.
5. EXCHANGE SERVICES

5.1 EXCHANGE AREAS (Cont'd)

5.1.6 LOCAL SERVICE INCREMENTS

A. Exchange Zone Increment

1. The increment shown below is applicable to exchange service furnished within exchange zones and is in addition to the local exchange service rates specified in 5.2, following.

2. Monthly Increment Per Access Line

<table>
<thead>

</tr>
</tbody>
</table>

5.1.7 MAPS

Maps, indicating each exchange area within the Company's operating territory, are in separate binders.

5.2 LOCAL EXCHANGE SERVICE
5.2.6 TELEPHONE ASSISTANCE PROGRAMS
B. Telephone Assistance Program for the Medically Needy (Cont’d)

2. Application

a. The Telephone Assistance Program for the Medically Needy is available to low-income households that meet specific financial eligibility criteria and demonstrate a special medical need requiring a telephone in the home. Customers are financially eligible if their annual income is at or below 150% of current federal poverty guidelines. Certification of medical need should be obtained by use of a simple, standardized form to be completed by a physician and attached to the application. The expected duration of the medical condition must be stated on the form. The Arizona Department of Economic Security (DES) will determine customer eligibility for this program.

b. The program provides a credit to cover the monthly charge for basic local residential phone service including any applicable monthly exchange zone increments. The program also covers the Universal Service Fund surcharge. In addition, the program covers 50% of the nonrecurring charge to install the primary residential line as well as the nonrecurring charge for the exchange zone increment if applicable. The FCC Lifeline program provides funding for the subscriber line charge of $6.30 and contributes an additional $3.50 credit toward the monthly charge for basic local residential service. In addition, normal deposit requirements will be waived for program participants.

c. The funding for this program was established by the Arizona Corporation Commission in Decision No. 57462, dated July 15, 1991. Qwest was ordered to set aside $1,000,000 annually for this program. In Decision No. 68604, dated March 23, 2006, the Arizona Corporation Commission increased the funding for this program to $2,000,000. Additionally, funding of $9.50 per qualifying customer is also available for this program through the federal Lifeline program. Program benefits are available to new program participants as long as there is sufficient money in the fund (which includes the $2,000,000 annual set-aside, federal Lifeline funds and all existing surplus funds) to cover them.

In the event that the $2,000,000 set-aside and federal Lifeline funds are not sufficient to cover the new applicants in any given year, Qwest will allocate any and all remaining surplus funds until all qualified customers are covered. In no event shall surplus funds be used by Qwest to pay administrative costs before all qualifying customers that have applied for benefits under the program have been covered for any given calendar year.

[1] The two monthly federal credits represent $6.31 for baseline FCC Lifeline support and an additional $1.75 FCC Lifeline support. See Tribal Lifeline for expanded federal lifeline benefits available to residents living on reservations.

[2] The monthly state credit specified above is the applicable credit for service for the Low-Income Telephone Assistance Program and reflects the 17% discount for the appropriate zone.

[3] The monthly state credit specified above is the applicable credit for service for the Medically Needy Telephone Assistance Program and reflects the 100% credit for the appropriate zone.

[1] The ASGFX and ASGF2 credits from the Lifeline Assistance Program totaling $8.06 apply in addition to the Tribal Lifeline credit. The FCC Tribal Lifeline Program consists of monthly federal baseline support of $6.31 (ASGFX). The Tribal Lifeline Credit is up to $25.00, but no more than necessary to reduce the Tribal Lifeline rate to $1.00.

[2] The credit amount is calculated by adding the 1FR rate of $13.18 and any applicable zone charge plus the $6.31 subscriber line charge together. The ASGFX and ASGF2 credits totaling $8.06 are subtracted from the total and the remaining difference less $1.00 which is the minimum Tribal Lifeline rate allowed, is the credit amount. For example: Tribal Lifeline customer in Exchange Zone 2, ($13.18 + $1.50 + 6.31 = $20.99 - $8.06 = $12.93 - $1.00) = $11.93 credit.
