EXCEPTIONS OF COX ARIZONA TELCOM

Cox Arizona Telcom, L.L.C. ("Cox") does not have any exceptions per se to the Recommended Opinion and Order ("ROO"). Cox's only concern is that the schedule of prices to be submitted by the parties contains a price for "on-premises wire," as provided by the ROO (at page 58, lines 8-9). Because the ROO adopts the HAI Model, Cox believes that the "on-premises wire" price set forth in Mr. Hydock's Revised Exhibit MH1 (attached as part of AT&T/WorldCom Ex. 15) should be adopted (as potentially modified pursuant to the ROO). That price is the HAI Model equivalent to the Qwest LoopMod's "Intrabuilding Cable" price and is consistent with the position that Cox took in this proceeding and recommended to the Commission for adoption. Alternatively, the Commission should adopt Staff's pricing proposal for intrabuilding cable set forth in Appendix A to Staff's Initial Post-Hearing Brief (again, as potentially modified pursuant to the ROO). Given that the parties have not yet submitted a schedule of prices to the Commission, Cox reserves the right to comment on the proposed schedule (or schedules) once it is filed.
