To Commissioners Pierce, Burns, Stump, Bitter Smith, & Burns:

I am a voter and solar customer concerned with the future of Net Metering in Arizona. Last fall a number of you ran on a pro-solar initiative, promising to keep the industry strong and to protect our rights to choose the sun to power our homes. I am writing to urge you to protect Net-Metering as it stands in Arizona.

APS has proposed an aggressive tax on solar customers, either in the form of a radically reduced rate of payment for power sent back to the grid or a substantial charge to their monthly bill.

I support rooftop solar in our state as an important and a means for Arizonans to have a real energy choice.

These proposed taxes will effectively end the residential solar industry in Arizona, eliminating choice in the residential energy market, destroying much needed jobs, and killing significant economic potential.

Please vote to protect Net-Metering.

Thank you,

Steve Hayko
