DOCKET NO. E-01345A-13-0248 OPPOSED NET METERING

From: Wes Glogner [mailto ] Sent: Saturday, October 26, 2013 12:54 PM
To: Utilities Div - Mailbox
Subject: Do not allow utility companies to monopolize power

It is completely unfair and immoral and illegal to change the rate the electric companies pay for solar power. We all made a deal, spent a lot if money, and now they want to change the contract.
No way ....
If the rate is changed, we will remove you from your position through whatever means nessesary.

WHY IS APS PROMOTING CLASS WARFARE?

Today I saw a commercial comparing solar customers benefits to stealing ice cream from kids. I have never been so disrespected as a customer for any company in my life. It seems APS' special interest groups are promoting class warfare by promoting divisive rhetoric among our neighbors who don't have solar. They are the ones who told us solar is a good thing and helps Arizona. Now they are selling us out to maximize their profits. I am totally disappointed with the image portrayed in the commercial and I pray that the goal of the corporate commission are to protect the consumers; not simply let APS profit and blame us. If APS knew solar would "dramatically hurt non-solar customers" why did they agree to the current process in the first place. They need to honor their commitment just like we do when we leased the solar.

Respectfully,

Phil Hollins

Arizona Corporation Commission
1200 W. Washington St.
Phoenix, AZ 85007

Dear AZ Corporation Commission,

Thank you for the opportunity to express my support for updating our state’s net metering policies.

I am concerned that the current net metering system gives an unfair financial advantage to those who have rooftop solar panels and use the grid to sell any excess power that they generate back to the utility. This leaves customers like me with increased costs to maintain the grid.

You should use your authority to correct this policy so that anyone who uses the electric grid helps pay to maintain and keep it operating reliably at all times. Just because someone chooses to use solar doesn’t mean I should have to pay them for it.

Please take action on this important matter as soon as possible. Any delay will just extend these unfair policies.
Thank you,

ROBERT MONTGOMERY

DOCKET NO. E-01345A-13-0248 OPPOSED NET METERING

From: frasercc
Sent: Saturday, October 26, 2013 6:22 AM
To: Utilities Div - Mailbox
Subject: Net Metering

I am floored to hear that the utility is funding a campaign against net metering. With all the sun in Arizona it is unconscionable to think we should not benefit from using it. Is it better to use our natural resource oil, coal and gas, to energize our homes, lacing the pockets of cooperation's who have a monopoly on producing power and give our dollars to fund their dividends or keep the money saved from producing power from solar in our pockets and spent in the state of Arizona?

George
